Warning

- Never use on painted surfaces, plastic or rubber treads, motorcycle or bicycle tires and similar vehicles.
- Store the can in a dry place, out of the reach of children, away from direct sunlight and at a temperature below 50 degrees Celsius.
- Avoid contact of product vapors and sprays with your eyes, skin and clothes.
- Do not puncture and throw a full or even empty can into the fire.

Usage

- Always work on a cool, shaded surface and it is best to wash the tires with a brush and water detergent before spraying this foam and make sure the tire is completely dry. Keep the can in a 10-15 cm of the tire and spray evenly. The spray must be allowed to dry naturally and the foam rested on the tire for a minimum of 10-20 minutes until it is shiny after drying.
